## C.P.R. Survey From Wetaskiwin

It is now practically assured that the C.P.R. are going to build west of this city in the near future. A rumor to this effect has been current for some time, but on Monday something more tangible took place, when a party of surveyors left the city to complete the survey from Pigeon Lake to Wetaskiwin. When this is done the C. P. R. will have completed their survey from this city to the Yellowhead Pass. It is reported that the route will be made to the Brazeau coal fields as quickly as possible and that the work would be completed at Pigeon Lake this fall.

It is recognized that the C.P.R. will be obliged to build the line west of here sooner or later to the Yellowhead, otherwise they could not compete for the transcontinental business as their rivals would have a much shorter haulage and would naturally make quicker time. Wetaskiwin welcomes this move on the part of the railway company, as she is destined to become the wholesale distributing centre for the entire west country and the sooner the line is built the sooner this will be realized.

**PRESBYTERIAN CHURCH**  
The pastor, Rev. E. McGowan, M. A. will preach next Sunday at both services. The evening subject will be the second of the series on "The Life of Christ" namely, "The First and Second Years of the Ministry."

**FIRST BAPTIST CHURCH**  
Next Sunday the pastor will preach morning and evening. The morning topic will be "A Living Sacrifice," and the evening topic "Follow Me." A male quartette will sing "Sacred Prayer" in the morning, and there will be a soprano and alto duet in the evening. The Lord's Supper will be administered at the close of the morning service and new members will be given the hand of fellowship.

## WETASKIWIN WINS BALL GAME

A good crowd was out to witness the first ball game of the season on the local diamond, Wednesday evening. The game was a close one, and a first one throughout, and the local boys showed much better form than when they played in the north town. Victor the local team had much advantage, as the score was a tie, 7-7, at the first half of the eighth. In the Wetaskiwin inning, Lilly scored the winning run with none out, and a man on first and third. The game was then stopped to enable the visitors to catch the train. Joe Richards, the veteran ball player, of the city, was the umpire and gave entire satisfaction.

The following was the line up:  
Leduc-Gus Hardy, c.; R. W. Watts, 1b.; O'Brien, 2b.; Freestrom, 3b.; Alcher, ss.; Runyon, lf.; Gaetz, cf.; F. Hardy, p.; J. H. Corvett, p.  
Wetaskiwin-Gus Landy, c.; Fred Johnson 1b.; W. Miller, 2b.; B. Underwood, 3b.; S. Murray, ss.; Minty, lf.; Jones, lf.; O. Lilly, cf.; H. French, p.

## IMMANUEL CHURCH

Sunday being Whitsunday, there will be special services appropriate to this festival at Immanuel Church of England. At half-past eight o'clock there will be a celebration of the Holy Communion, followed at eleven o'clock by matins, sermon, and second celebration of the Holy Communion. At half-past seven o'clock there will be evening with sermon. The subjects of the sermons by the Rector will be in the morning "The Fruits of the Holy Spirit," and at evening "The Work of The Comforter," both having special reference to the feast of Pentecost. As this is one of the principal festivals of the church's calendar there will be large congregations and all confirmed persons should make their communion at one or other of the celebrations in the morning.

It has been decided to build a suitable rectory on the Immanuel Church of England lots, to supersede the present inadequate living accommodation for residence.

On Coronation Day there will be a special Coronation service at Immanuel Church, in the morning, at eleven o'clock. This is in compliance with the decision of the Bishop of the diocese and the executive of the Synod. The sermon will be preached by the Rector.

Last Sunday at Immanuel Church the collection was on behalf of the Clergy Widow and Orphan fund of the ecclesiastical province of Rupert's land of which this parish forms a unit.

Calgary, Alta., May 26.—So impressed are the fire insurance companies operating in Alberta with the necessity of the appointment of a provincial fire commissioner that they have decided to devote one per cent. of their total gross income in this province to the payment of the salary and expenses of an official if the government will appoint him.

When the question of voting supply for the Royal Northwest Mounted Police came up in the house of commons it was explained that the force at present consisted of about 619 men which number it was proposed to increase to 700. The province of Alberta and Saskatchewan contribute \$75,000 a year each to the maintenance of the force.

A despatch from Ottawa says that at one o'clock on Monday the thermometer at the Experimental Farm registered 93 degrees. On the shady side of Spar's street at the same time, some thermometers gave 89 and others 91. Official maximum temperature registered in Ottawa Monday was 93 degrees, one full degree higher than on July 4, and the hottest day since July 1908.

Strathcona, Alta., May 26.—In response to a recent application, Andrew Carnegie has offered the public library board to this city the sum of \$15,000 for the erection of a library building here this year. Maintenance has already been secured by the city council and an admirable site has also been granted so that the new building will in all probability be erected this year.

To make drinking water or milk safe from bacteria take a tablespoonful of chloride of lime (fresh) and dissolve in a cupful of water and keep this as a stock solution from which one teaspoonful in 6 or 8 quarts of water will kill all bacteria, including typhoid and colic bacilli. The water so treated will neither taste nor smell of the chloride of lime and the stock solution will remain good for several days.

The natural breeding place of flies, the carriers of typhoid fever germs, is in the horse manure heap. This refuse should be removed at once. A few incense burners can burn flies for a whole city. Destroy the breeding places and the flies will soon disappear. Horse manure and other filth can be treated with a liberal supply of lime which is effective in destroying the eggs and maggots. Fly paper, screen cages, fly poison and wire poisons are all good in their way, but the destruction of the breeding places is the only way to safeguard against this dangerous pest.

## Was So Bad With Heart and Nerves Could Not Sleep

At Night.

Many men and women lose night after night upon a sleepless bed. Some suffer from nervousness, worry or disease has so debilitated and irritated the heart and nervous system that they cannot sleep until they are exhausted.

Those whose heart and nerves are right, sleep at night. There was such a pain and heavy feeling in my chest that I could not sleep, and at times I would become dizzy and have to grasp some thing to keep from falling. I tried different things but never got anything to do me any good until I tried Milburn's Heart and Nerve Pills and I can now recommend them to all troubled as I was.

**SHE WAS SURPRISED**  
When Dr. Morse's Indian Root  
Pills Cured her Chronic  
Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells  
an interesting story of relief from almost  
intolerable suffering:  
"I can hardly tell you how great my  
sufferings have been. Chronic liver com-  
plaint accompanied by biliousness was my  
daily source of trial. Every day I  
experienced the sickening effects of  
these ailments. I longed for some medi-  
cine that should permanently drive them  
away.

Hearing of Dr. Morse's Indian Root  
Pills, I thought they were worthy of a  
trial. My surprise was indeed great.  
From the very first I experienced relief.  
Continuing with them I found my troubles  
were slowly but surely leaving me,  
and before long I once more knew what  
it was to be free from the harassing ef-  
fects of the ailments that had long sick-  
ened and weakened me. So great was my  
faith in Dr. Morse's Indian Root Pills that  
I shall never on any account be without them  
at my dealer's.

Dr. Morse's Indian Root Pills cure  
Bowel and Kidney as well as Liver trou-  
bles, and keep you healthy. 25c a box

BOILS AND PIMPLES  
Are caused altogether by bad blood, and  
unless you cleanse the system of the bad  
blood the boils or pimples will not dis-  
appear.  
Get pure blood and keep it pure by  
removing every trace of impure morbid  
matter from the system by using the  
greatest known blood medicine,  
BURDOCK BLOOD PURIFIER.

**Boils Cured.**  
Miss Eva A. Skinner, Granby, Que.,

## THE STATES FARMERS

The farmers organizations of the States—especially the old-established Grange, and the powerful Farmers Union which has attained widespread influence—are waging a determined fight at Washington against the reciprocity agreement. It is a toss-up whether or not they will convince the Senate majority that the agreement should not be ratified. They fear mostly a serious reduction in the value of their lands through reciprocity. The high prices against which consumers complain do not reach the farmer. Unfortunately too much of the charge is swallowed up by the middlemen. The Toronto Farmers Sun sizes up the situation from the American side in this way:

"One of the most illuminating statements that has been given as to the reasons which led the Government of the United States to enter into the agreement for reciprocity with Canada is contained in the speech which Hon. Joseph Cannon, Ex-Speaker of the House of Representatives, recently delivered in Congress. In that speech Mr. Cannon went into the most elaborate detail as to the area climatic conditions, the railway facilities of this country. Mr. Cannon pointed out that the temperature at Edmonton, 325 miles north of the boundary, is the same as at Kalispell, Montana; that the supply of moisture is greater in Saskatchewan and Alberta than in Dakota; railway connections are already in place for the products of Canadian soil into the American market, and that the only thing which prevents this is the existing American tariff. After reviewing the whole situation, Mr. Cannon declared that free trade between Canada and the United States would mean throwing open the American market to the Canadian farmer 'without one iota of compensation' to the United States; that the agreement would 'greatly' in the interests of Canada, without compensating benefit to the United States; that it would 'result' in prosperity for our Canadian neighbors and bankruptcy for those engaged in agriculture in the United States."

Mr. Cannon's statement, while exaggerated in parts, undoubtedly contains a large measure of truth. Canada is still mainly an agricultural country, while the United States is now mainly a manufacturing country. To provide for free trade between the two countries in agricultural products while keeping up tariff barriers on manufactured products, will unquestionably increase the sales of Canadian products in the United States to a much greater extent than the sales of American products will be increased in Canada.

Why, then, has such a bargain contrary to all the dictates of protection, which have heretofore held sway, been accepted by the United States? Mr. Cannon's speech gives the answer. The agreement has been made in order to placate the two most powerful interests along the border—the city dweller and the metropolitan press. The city dweller has been clamoring against the increasing cost of living, and it is expected that the free importation of Canadian foodstuffs will prevent any further advance in this respect. The owners of great journals have become alarmed, because of the great scarcity of pulp wood, and count on the conditional agreement for free trade between the two countries as a pulp means of averting a famine in the American white paper market. The agreement is intended to satisfy the organized, insistent, dweller in the cities, and to quiet the magnophones of the great daily journals. American farmers, who now, according to Mr. Cannon, number only one-third the population of the United States are to be forced to surrender whatever advantages the United States tariff on farm products gives to American agriculture. But, in order to relieve the appearance of one-sidedness so far as the American farmer is concerned, the Democratic party proposes to go further and, as a supplemental measure, and apart from the reciprocity agreement altogether, to allow free importation from all countries of a large number of manufactured articles of which American farmers are purchasers.

Meantime, the facts contained in the speech of Mr. Cannon, and the vigorous opposition of the United States Grange to the reciprocity agreement, should provide a sufficient and complete answer to foolish statements which are yet being made to the effect that the opening of the American market to Canadian farm products will be a good thing for the Canadian farmer.

## \$3,600 in Cash Prizes for Farmers

Are you going to build that new barn, shed, silo, or dairy house of cement? Then insist on your dealer supplying you with the "CANADA" Cement. Not only will this ensure your getting a pure, uniform and strictly high-grade cement, that will guarantee the lifetime permanency of the thing you build, but it will also enable you to enter our Prize Contest. And in this contest you stand a good chance of winning a prize that will perhaps more than pay you for the cost of the work. Every farmer in Canada who uses "CANADA" Cement is eligible to compete. Four prizes will be awarded in each Province and these prizes will be divided as follows:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will construct the greatest number of barrels of "CANADA" Cement on his farm in 1911 for the greatest amount of barns.

PRIZE "B"—\$100.00 to be given to the farmer in each Province who will construct the greatest amount of barns in 1911 for the greatest amount of barns.

PRIZE "C"—\$100.00 to be given to the farmer in each Province who will construct the greatest amount of barns in 1911 for the greatest amount of barns.

## Notice how we have purposely planned

and imposed certain necessary conditions

In order to give large and small users of

concrete an equal opportunity.

As an illustration of this: In prizes "C"

and "D," the quantity of cement used

in the construction of a house—and the same

applies to prize "J."

Don't hold back from entering because

you think you don't know anything about

concrete work. It's very simple. He-

rides, we have a 100-page book that

will send you free on request, which tells

you all about concrete and how to make

and use it. In this book, you'll find com-

plete instructions for the making of al-

most everything you can think of in the

way of farm utilities, floors, vats, troughs,

stairs, posts, etc.

This free book—entitled "What the

Farmer Can Do With Concrete"—will not

only inform you—it will also greatly in-

crease your knowledge of the value of

whether you intend to try for one of the

prizes or not.

That the Wetaskiwin district pro-

duces as good horses as any other

centre in the West was demonstrated

this week, when a representative of

the Dominion Express Company was

in the city and purchased three teams

for their delivery route in Edmonton

and Calgary. One team was bought

from Chas. Nelles for \$550, one from

Geo. Schmitt for \$575 and the other

from James Schmitt for \$550. Wm.

Smith's driver was also purchased

for the sum of \$250. The deal was

made through W. H. Hignelson, who

says there is no money in raising

good horses in Alberta?

Miss Currie Love, of Calgary, re-

presenting the publicity branch of the

C.P.R. Irrigation and Colonization

Department, passed through the city

this week for Sedgewick, where she

will report on the conditions of the

new settlers on the ready made farms

she was a pleasant caller at The

Times office.

sions of the Methodist Conference at

Calgary.

## DEAL GENTLY WITH THE ENUM- ERATORS

On Thursday, June 1 and the fol-

lowing three weeks, the national ten-

years stocktaking of the Dominion of

Canada will be under way, when the

enumerators will be scattered

broadcast with their portfolios and

schedules to tabulate the statistics

concerning the population and mat-

terial resources of the Dominion.

The information sought this year is much

more comprehensive than it was ten

years ago and the Western census in

1906 only covered part of the general

average man, when the census en-

umerator gets through with him will

know more about himself and his

family and his staff than he ever did be-

fore. The enumerators are sworn to

treat the information given them as

confidential. The information

## Local News Items

W.H. Tate, barber, who has been at Seattle, Wash., and Nelson, B.C., since leaving here a couple of years ago, is renewing acquaintances in the city this week.  
The new game regulation for 1911 requires that persons in the towns desiring to do shooting in the open season must obtain a license costing \$1.25. Country residents are exempt. The season for duck shooting opens on Aug. 23rd and parties should be careful as a fine of \$5.00 and costs may be imposed for infraction of the game ordinance.  
The fire brigade had two calls during the past week, the first one being on Friday evening last, to the home of Mrs. Newfield, next the Royal Hotel, where the curtain caught fire from a lamp. Little damage was done. The other alarm was rung in Tuesday afternoon for a blaze at the rear of Ald. Chandler's residence. The fire was rapidly approaching a straw stack and stable, but fortunately it was extinguished before much damage was done.

The Northern Construction Co. have 2,300 teams and more than that number of men at work now, on the C. N. R. between Blackfalds and Rocky Mountain House. If the weather is at all favorable they will be in grade to the river here by the middle of August, but it is not likely that the steel will be laid for a month or six weeks later. It is expected they will have everything in shape for traffic by November or possible before that time—Rocky Mountain House Echo.

E. Roberts, J. P. had three cases before him during the past week. The first was that of Geo. Hunter, charged with being drunk and disorderly. He was fined \$2.00 and costs. On Tuesday Fred Shipley was arraigned on the charge of wandering abroad without means of subsistence, and was assessed \$4.00 and costs or one month. Lena Golvins, charged with wandering around as a prostitute, was released on suspended sentence.

Wetaskiwin now has an up-to-date opera and moving picture house, in Angus Theatre, and one of which the citizens are justly proud, and that it is appreciated is shown by the large crowds who attend the nightly moving picture shows. The house has a seating capacity of over 500, the chairs being of the opera type, and so arranged as to give ample seating space, thus enabling the patron to witness the show in perfect comfort. The class of films used by Manager Angus are the best to be had and are clearly shown by the new machine he has installed. The singing by little Miss Bell is none other than the price of admission. Mr. Angus has every reason to feel proud of the success his efforts are claiming.
